MX RECOVERY PAIN RELIEF BALM

Ultra-cooling topical. Designed for short- and long-term pain relief from impacted muscles, joints, and tendons after any activity. Great for acute and chronic pain.

RECOVERY KEEPS ME MOVING!

I tried RECOVERY on a whim. Boy am I glad I did. I have terrible arthritis in my hands and hips and this balm keeps me moving. I rub the balm into my joints and both pain and stiffness ease away. I wake in the morning without my usual grunts and groans getting out of bed. Thank you for making such an excellent product! – **Lisa B**

MX RESTORE PAIN RELIEF LOTION

One of the most powerful and unique lotions on the market. Restore combines the pain-relieving properties of Arnica and anti-microbial skin healing benefits of nano-silver technology. Restore also contains hyaluronic acid that works to hydrate and moisturize your skin.

Our unique proprietary formula targets pain and inflammation. Restore aids in the healing of dry and cracked skin, blisters and minor skin irritations while warding off infections.

AMAZING PRODUCT!

Wow! As soon as you put it on you instantly feel the effects. Soothes. Takes away pain within seconds. My rheumatologist told me to keep on using it because it really helps me lower the dosage of some of my oral meds. Yay! I'll be 72 next Thursday and I'm grateful to have found your products and perhaps I'll be around to spread the word to other seniors. Actually, I tell as many as I come in contact with.

MARKET/AUDIENCE DATA

ARTHRITIS AND JOINT PAIN

Increase in prevalence of arthritis and joint pain is the major factor that contributes toward the growth of the topical pain relief market in the U.S. Moreover, other factors that fuel the market growth include growth in geriatric population.

NON-OPIOIDS SEGMENT

Non-opioids is the most influencing segment due to lesser side effects as compared to opioids and no substance abuse, thus, non-opioids are preferably used as topical pain relief medication.

TOPICAL PAIN RELIEF

Topical Pain Relief are used to relieve pain as they are composed of different ingredients such as opioids, non-steroidal anti-inflammatory drugs (NSAIDs), salicylates, capsaicin, and others. These products have a heating or cooling effect that stimulate the nerves near the pain point and relieve pain.

CHRONIC PAIN AWARENESS

Growth in number of patients with chronic pain, rise in prevalence of arthritis and other joint problems, majorly drive the growth of this segment. Arthritis is one of the most common and widely spread disorder that affects millions of people in the U.S. According to Centers for Disease Control and Prevention.

Our Story

Everyone is unique. No one is quite the same. But if you really look, there are more things about us that are the same, than are different. We all want the best possible life for ourselves and our loved ones. That simple uniting idea was the spark that created Muscle MX.

We all want to be pain-free. If you look around, regardless of age, race or gender, pain can be found everywhere. We shouldn't be surprised at the widespread addiction to prescription pain medications. There is a far better way.

We have a passion for health, wellness and life's adventure. When one of our family members became imprisoned with a serious ailment and chronic daily pain, we began searching for alternatives to help out. After intense research, we carefully and lovingly crafted our products with natural and powerful ingredients to help everyone live their lives to the fullest. We have blended modern science and proven age-old remedies to help you maximize your body's performance whether it is in preparation for a triathlon or simply doing daily tasks.

Our Vision

We are dedicated to enhancing everyone's active life with clean, simple products that you can trust. At Muscle MX, we believe different lifestyles require different needs. There is no magic bullet or solution that fits everyone.

Our goal is to design and make the highest quality products that support our customers from head to toe, inside out at a moderate price. Muscle MX is for everyone.
